

MISSISSIPPI COMMUNITY COLLEGE BOARD

Professional Licensure & State Authorization
Program Determination Disclosure

Program Title

CIP Number

In April 2022, the Mississippi community colleges agreed to collaborate, where applicable, to reduce duplication of effort and to ensure system-wide compliance with federal requirements and the National Council for State Authorization Reciprocity Agreement (NC-SARA).

Federal Requirements

U.S. Department of Education regulation, 34 CFR 668.43 (a) (5) requires an institution to disclose whether programs leading to professional licensure or certification, regardless of modality, meet each state's educational requirements. Specifically, the regulation requires the following:

- A list of all states for which the program's curriculum **meets** state educational requirements for professional licensure or certification,
- A list of all states for which the program's curriculum **does not meet** state educational requirements for professional licensure or certification, and
- A list of all states for which the institution **has not made a determination** of whether the curriculum meets educational requirements.

NC-SARA Requirements

The community colleges of Mississippi are members of the NC-SARA. NC-SARA is an agreement between member U.S. states, territories, and districts, which allows institutions to offer distance programs and on the ground courses within member state borders. Recent changes to the NC-SARA manual (Section 5.2) concerning professional licensure programs have changed to align with the federal regulation. NC-SARA participating institutions must provide licensing board contact information to the students or applicants when unable to make a determination. The following forms will demonstrate the determination for each state and territory. For those marked **Does Not Meet** or **Has Not Made a Determination**, additional information is available.

DISCLAIMER

The Mississippi Community College Board (MCCB) hosts general disclosure information on behalf of the community colleges. The program information was provided by the reviewer college, and the MCCB cannot guarantee the completeness and accuracy of the information. While a program may originally meet the educational requirements for licensure, changes in requirements could impact the program's ability to meet any new educational requirements. Students seeking employment should familiarize themselves with the specific licensure or certification requirements of a state before enrolling in a program, and contact the appropriate licensing agency in the state of future employment to determine requirements and ensure program compatibility.
