

MISSISSIPPI COMMUNITY COLLEGE BOARD

Professional Licensure & State Authorization
Program Determination Disclosure

Program Title **Dental Assisting / Assistant**

CIP Number **51.0601**

In April 2022, the Mississippi community colleges agreed to collaborate, where applicable, to reduce duplication of effort and to ensure system-wide compliance with federal requirements and the National Council for State Authorization Reciprocity Agreement (NC-SARA).

Federal Requirements

U.S. Department of Education regulation, 34 CFR 668.43 (a) (5) (v) 34 CFR 668.43(a)(5)(v) requires an institution to disclose whether programs leading to professional licensure or certification, regardless of modality, meet each state's educational requirements. Specifically, the regulation requires the following:

- A list of all states for which the program's curriculum **meets** state educational requirements for professional licensure or certification,
- A list of all states for which the program's curriculum **does not meet** state educational requirements for professional licensure or certification, and
- A list of all states for which the institution **has not made a determination** of whether the curriculum meets educational requirements.

NC-SARA Requirements

The community colleges of Mississippi are members of the NC-SARA. NC-SARA is an agreement between member U.S. states, territories, and districts, which allows institutions to offer distance programs and on the ground courses within member state borders. Recent changes to the NC-SARA manual (Section 5.2) concerning professional licensure programs have changed to align with the federal regulation. NC-SARA participating institutions must provide licensing board contact information to the students or applicants when unable to make a determination. As members of NC-SARA, the colleges are to provide the state licensing board contact information where the student is located. The following forms will demonstrate the determinations for each state and territory. For those marked **Does Not Meet** or **Has Not Made a Determination**, additional information is available via the hyperlinked state and/or territory name.

DISCLAIMER

The Mississippi Community College Board (MCCB) hosts general disclosure information on behalf of the community colleges. The program information was provided by the reviewer college, and the MCCB cannot guarantee the completeness and accuracy of the information. While a program may originally meet the educational requirements for licensure, changes in requirements could impact the program's ability to meet any new educational requirements. Students seeking employment should familiarize themselves with the specific licensure or certification requirements of a state before enrolling in a program, and contact the appropriate licensing agency in the state of future employment to determine requirements and ensure program compatibility.

Response Received: The Louisiana State Board of Dentistry only regulates Expanded Duty Dental Assistants (EDDA). To become an EDDA, they must take a board-approved EDDA course and meet the course provider's requirements which usually consists of six months of chair-side experience.

The regulated duties can be found at the following website:
<http://www.lsbd.org/applications/dentalassist.pdf>

Response Received: In order for dental assisting programs to be recognized for the purposes of registration in Iowa, they must be accredited via CODA. Students who graduate from accredited dental assisting programs may apply directly for registration in the state of Iowa. The Iowa Dental Board also accepts the results of the DANB ICE and Radiation Safety examinations for the purpose of registration.

Response Received:

Please note, Idaho does not license, register, or certify dental assistants. Below is our rule pertaining to our rule on assistants: 037. DENTAL ASSISTANTS – PRACTICE. Dental assistants are authorized to perform dental services for which they are trained unless prohibited by these rules. Dental assistants must be directly supervised by a dentist when performing intra-oral procedures except when providing palliative care as directed by the supervising dentist. 01. Prohibited Duties. A dental assistant is prohibited from performing the following duties: a. The intraoral placement or carving of permanent restorative materials. b. Any irreversible procedure. c. The administration of any sedation or local injectable anesthetic. d. Removal of calculus. e. Use of an air polisher. f. Any intra-oral procedure using a high-speed handpiece, except for the removal of orthodontic cement or resin. g. Any dental hygiene prohibited duty.

The State of Oklahoma doesn't require dental assistants to attend a dental assistant program to retrieve the permit just the passage of a background check, however, those who are coming from out of state who has obtained their expanded functions would have had to attend a CODA program per statues then one can be considered to hold a permit with the functions added and since the Mississippi Community College is a CODA approved program we will accept it.

Response Received: In Oregon, Dental Assistants are not licensed, but must be certified, in order to take x-rays or to perform certain Expanded Functions. The rules regarding dental assisting are found in Oregon Administrative Rules, Chapter 818, Division 42 In order to take x-rays, perform general expanded functions (EFDA), perform expanded orthodontic functions (EFODA), perform restorative functions, perform preventive functions (EFPDA) or perform certified anesthesia functions, dental assistants in Oregon must first be certified in those procedures. The certification process is performed by the Dental Assisting National Board (DANB).

DISCLAIMER

The U. S. Department of Education requires all colleges to communicate publicly and directly to prospective and current students regarding professional licensure disclosures. The Mississippi Community College Board (MCCB) hosts general disclosure information on behalf of the community colleges. The program information was provided by the reviewer college, and the MCCB cannot guarantee the completeness and accuracy of the information. While a program may originally meet the educational requirements for licensure, changes in requirements could impact the program's ability to meet any new educational requirements. Students seeking employment should familiarize themselves with the specific licensure or certification requirements of a state before enrolling in a program, and contact the appropriate licensing agency in the state of future employment to determine requirements and ensure program compatibility.
